

# Presentation to SIMSA

May 27, 2021

Integrity | Adaptability | Safety | Quality

Integrity | Adaptability | Safety | Quality

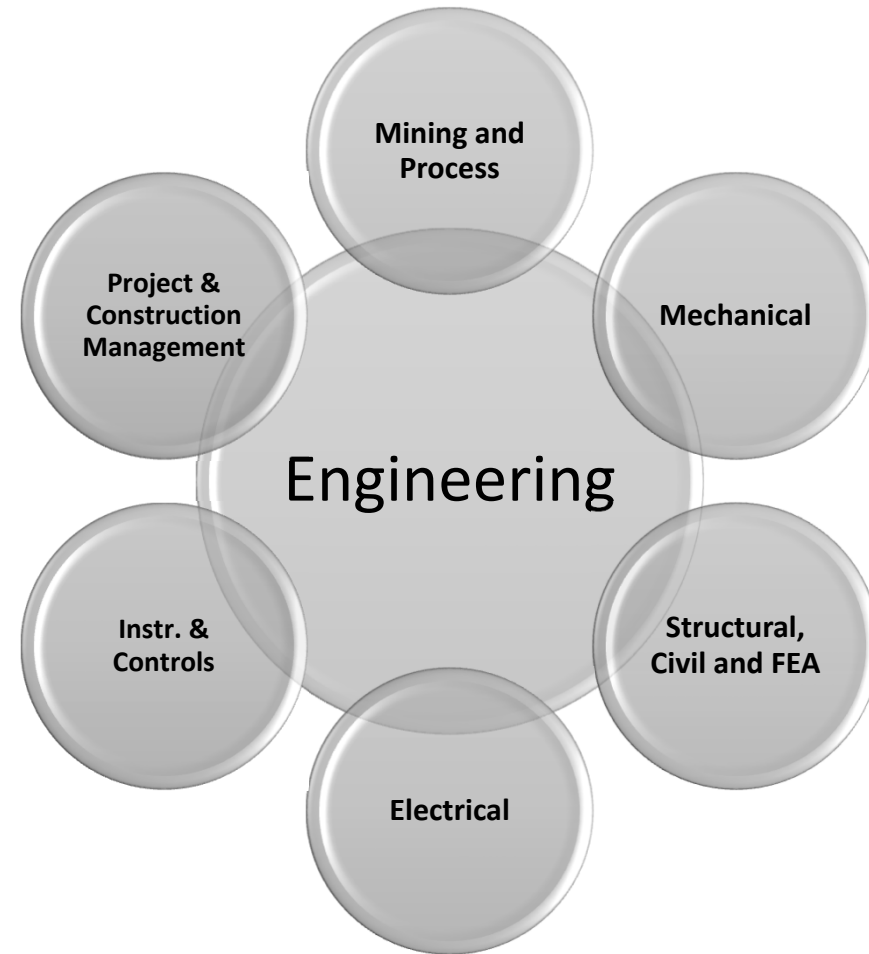

# Safety Moment

## Agenda

- Overview
- Sectors and Capabilities
- Key Clients
- Procurement/Collaboration Opportunities
- Upcoming Opportunities

## Overview

- Multi-discipline engineering firm
- Providing services in Canada for over 22 years
- Based in Saskatchewan – offices in Saskatoon and Regina
- 75% Employee-owned; 25% indigenous owned
- Comprehensive EPCM services
- Projects up to \$50M CAPEX

## Overview

- **Additional Specialized Expertise**

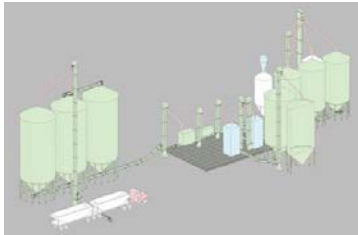

- Asset Integrity, Equipment Reliability and Management
- Composite Materials – FRP and Plastic tanks, vessels and other equipment
- Arc Flash Studies and solutions
- Mining and Milling Studies
- Cold Eye and Peer Reviews
- 3D Modeling (rendering, videos)
- Engineering Forensics
- HAZOP/HAZID Workshops

## Sectors

### Mining and Minerals

- Potash
- SOP
- Uranium
- Gold
- Copper
- Other base metals

### Agriculture

- 3D Modeling
- Material Handling
- Silo and Bin Design
- Concrete Design
- Electrical Design
- Project Management

### Buildings & Facilities

- Project Management
- First Nations' Infrastructure
- Healthcare
- Office Buildings

### Energy, Utilities & other industries

- Power Production Facilities
- Clean Energy
- Water/Wastewater Treatment
- Pulp and Paper
- Fabrication Design

## Select Key Clients

# Procurement and Collaboration Opportunities

- Clients usually request that we utilize their systems
- Familiarity with ISN and Ariba
- May be a combination of design-supply or design-build
- Work collaboratively with numerous Saskatchewan suppliers

## Upcoming Opportunities - Mining

- Construction/Installation of a Potash pilot plant
- Mechanical – Pumps and pump boxes, vessels, piping, and conveyors
- Electrical – MCCs, Pre-Engineered/Modular E-rooms
- HVAC and Dust Collection systems
- Structural and Concrete
- Piping/Equipment Coating Expertise
- 3D Scanning

## Upcoming Opportunities – Other Industries

- Material Handling Equipment -conveyors, baggers, totes, small tanks & mixers
- Electrical Equipment
- Instrumentation and Controls
- Experience in working with Indigenous communities
